WARNING: Freediving and spearfishing are inherently dangerous activities and can lead to serious injury and/or even death if limitations and safety guidelines are not followed correctly. The content in this manual is intended for instructional purposes only.

Accidents may be due to - but are not limited to, drowning, shallow water blackout, defective dive gear, boating accidents, shark attacks and others. The information in this guide does not offer any guarantee or warranty pertaining to your own health and safety while engaging in any water-related activities. This content in is intended for instructional purposes only.

Penetrator Fins does not accept any responsibility or liability for injury or death caused whilst using any of our products. You are responsible for using common sense, good judgement and personal awareness during all water based activities. Always dive within your limits, check your gear - know your capabilities and limitations. We strongly recommend completing an accredited Freediving course, educating yourself on the dangers and risks associated with these sports; and the use of the "buddy system" (one up / one down rule) while spearfishing and/or freediving.

PRODUCT MANUAL

1

Penetrator[®]

Congratulations on purchasing a pair of Penetrator Fins. Please read through the information contained in this manual thoroughly to ensure you get the best performance, care and longevity out of your fins.

IMPORTANT: Please save this product manual. It contains valuable product information to help you get the best performance & longevity from your fins.

PRODUCT CARE

2

TRAVELLING & STORING YOUR FINS:

- + Ensure heavy loads are not placed directly onto fin blades.
- + Avoid placing fin blades together during transit as chaffing & compression to water rails can cause cosmetic damage.
- + Do not leave fins in direct sunlight for prolonged periods of time.
- + Do not store fins at temperatures over 70 degrees Celsius.
- + Store fin blades either hanging up or lying flat, Do not stand on fin tips.

USING YOUR FINS:

- + Avoid pushing off the bottom when ascending. The fin tips are not designed to withstand this type of load.
- + Avoid sharp objects contacting the tips of the blade.
- + Surface scratches will not affect the performance of the blades - however if loose fibres are exposed - cease use and contact Penetrator Fins for advice. In most cases, damaged tips etc can be easily repaired.

AFTER USE:

- + Do not leave fins stored wet or with wet items. Dry asap after use - prolonged storage wet will damage embedded graphics.
- + Always wash in fresh water and allow to dry in the shade.
- + Mild detergent may be used to clean the blades.
- + Do not use solvent-based cleaners, especially around logo's.
- + Inspect the blades for damage before / after each dive.
- + Inspect the footpockets for damage and cracks, especially around where the pocket tendon joins to the fin rail.

FOOTPOCKETS:

When fitting to footpockets please ensure the insert shape and size matches the brand of pocket you are using. Drill holes no larger than 4mm for fixing kits. Larger holes may void the warranty. Our standard fin inserts currently fit:

- + Mares razor + Omer Stingray (Must be old style only)
- + Omer Eagle Ray + Salvimar STEP
- + Beuchat Mundial + Hammerhead Kaudal
- + TPR generic pocket + Leaderfin Forza pockets

PRODUCT WARRANTY

3

WARRANTY

Penetrator fins offers a **1-YEAR WARRANTY** on all **CARBON FINS** and a **3-YEAR WARRANTY** on all **COMPOSITE FINS**. This warranty covers materials free from failure and defects caused by manufacturing - to the original owner & purchaser of the fins.

Please note this warranty does not cover damage caused by you, or unintended uses of the product ("Customer Damage").

CUSTOMER DAMAGE INCLUDES:

- + Damage caused as a result of neglect;
- + Damage caused by exposure to extreme temperatures;
- + Alterations or repairs without our permission.

Other factors that will prevent you from claiming under this warranty or that are not covered include:

- + The product has been purchased used, second hand or from anyone other than an authorised stockist or directly by us.
- + The process for making a claim under this warranty has not been correctly followed.
- + Footpockets, unless faulty on receipt of the product.
- + Normal wear and tear.

HOW TO MAKE A CLAIM

- + Contact the stockists where you purchased the product or email us directly: admin@penetratorfins.com OR If you purchased the product within one year from the date of purchase:
- + Present the original invoice, sales receipt or online order number if purchased online.
- + Return the product to the stockist or us for assessment. We will then determine the claim is valid in accordance with the terms of this warranty and fix / or replace where necessary.

IMPORTANT: Please save this product manual. It contains valuable product information to help you get the best performance & longevity from your fins.
